

# Old-growth Forests of Sweden

Cities  
 Railroads  
 Roads  
 Rivers

**Unprotected old-growth forests:**  
 from 100 to 1000 hectares;  
 greater than 1000 hectares;  
 greater than 1000 hectares.

**Protected old-growth forests:**  
 from 100 to 1000 hectares;  
 greater than 1000 hectares.\*

No data available

\* Important note: Green polygons represent the unfragmented mountain-near forests as defined by Swedish Society for Nature Conservation (1998). These areas contain high concentration of old-growth forests and large proportion is within protected areas.
